Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

2. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Regarding independent claims 1, 8 and 15, Applicant is claiming a program storage medium that implements method steps for specifying a topological map whereby the limitations associated with independent claim 1, in lines 6-22; independent claim 8, in lines 5-21; and independent claim 15, in lines 6-20 are not positive limitations because Applicant does ***not provide concrete method steps for performing a function***. For example, Applicant uses the phrase "if", which in it self is an indefinite term, and Examiner questions what happens after "if." Applicants presented claims are vague and indefinite. Furthermore, the claim language that Applicant is presenting does not provide Examiner with enough information to perform a meaningful search. Examiner is not clear as to what Applicant is claiming as his invention. Claims 2-7, 9-14 and 16-18 depend on claims 1, 8 and 15 respectively therefore claims 2-7, 9-14 and 16-18 are rejected as well.
